

Creating the next generation of women maritime leaders

Friday, March 20, 2020 | St.Regis, Mumbai

Endorsed by

Theme Diversity and Sustainability

Maritime SheEO is a concept that works towards creating the next generation of women maritime leaders. It focuses on the business case for diversity and works with stakeholders to create solutions that impact the entire maritime industry.

With a view to highlight these aspects and encourage a progressive discussion on the same, I invite you to support and participate in the first Maritime SheEO conference endorsed by the International Maritime Organisation [IMO], DG Shipping & United Nations Global Compact, India. The conference shall be held on **March 20, 2020** in **Mumbai** at the **St.Regis**.

While the theme of the conference is Diversity and Sustainability, we will hear from international experts on technology and disruptions taking place in the maritime ecosystem, social sustainability and future maritime trends. We will hear from global women leaders on their journey not only as women but as industry leaders.

The conference offers networking opportunities with representatives from the IMO, International Chamber of Shipping, ship owners and all verticals of the maritime and logistics companies from over 10 countries.

"Diversity isn't just the right thing to do, it is profitable. In an increasingly competitive industry being disrupted, we need increased level of diversity to innovate and to continue to create value."

Speakers Line-up

Ms Karin Orsel, CEO and Owner MF Shipping Group, The Netherlands
Ms Katharina Stanzel, Managing Director, Intertanko
Dr Cleopatra Doumbia Henry, President, World Maritime University, Sweden
Mr Guy Platten, Secretary General, International Chamber of Shipping
Mr Birgit M Liodden, Founder / CEO The Ocean Opportunity Lab
Ms Helen Buni, Principal Programme Assistant, Technical Cooperation Division, IMO
